Dammam

Industrial Base

ALEBTIKARIA has evolved from a specialized metal-forming workshop into a full-scale steel fabrication factory serving the Kingdom's industrial, construction, transportation, and energy sectors.

Built for Industrial Performance

ALEBTIKARIA AL TASHKEELIA for Metal Industries is a Saudi-based industrial manufacturing company specializing in steel fabrication, CNC laser cutting, metal forming, rolling, welding, and custom-engineered industrial equipment.

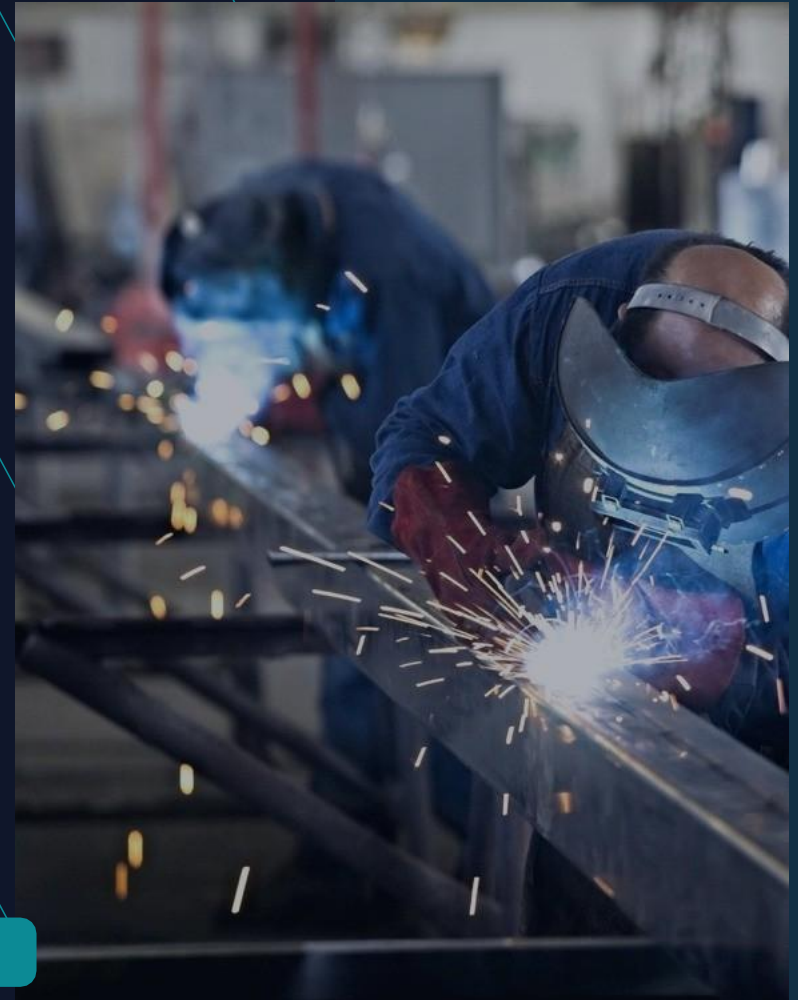

Operating from Dallah Industrial Area in Dammam, our 2,500 m² facility is equipped to deliver precision components, heavy steel structures, silos, hoppers, tanks, pressure vessels, industrial platforms, stair systems, and complete fabricated assemblies.

Supported by experienced engineers, fabricators, welders, and technicians, we transform engineering concepts into durable steel solutions that meet demanding operational requirements.

Precision Processing

Heavy Fabrication

Industrial Equipment

From Workshop to Industrial Factory

2010

Founded in the Eastern Province as a specialized metal forming workshop.

Growth

Invested in CNC laser cutting, press brake bending, rolling, and fabrication capacity.

Today

A 2,500 m2 industrial steel fabrication factory with 50 skilled employees.

Future

Expanding as a trusted manufacturing partner for Saudi industry and infrastructure.

Vision, Mission & Values

Our Vision

To become one of Saudi Arabia's leading industrial steel fabrication companies, recognized for engineering excellence, manufacturing innovation, and uncompromising quality.

Our Mission

To provide innovative, precise, and reliable steel fabrication solutions through advanced technologies, skilled craftsmanship, and continuous improvement.

Quality

Highest production standards.

Integrity

Transparent partnerships.

Innovation

Technology-driven solutions.

Safety

Responsible operations.

Commitment

Delivery as promised.

FACTORY OVERVIEW

Manufacturing Facility

Our Dammam manufacturing facility is designed for metal processing, steel fabrication, welding, assembly, and custom industrial manufacturing. The factory supports both precision sheet metal work and heavy-duty fabrication projects with efficient workflow and skilled supervision.

2,500 m2

Manufacturing Area

50

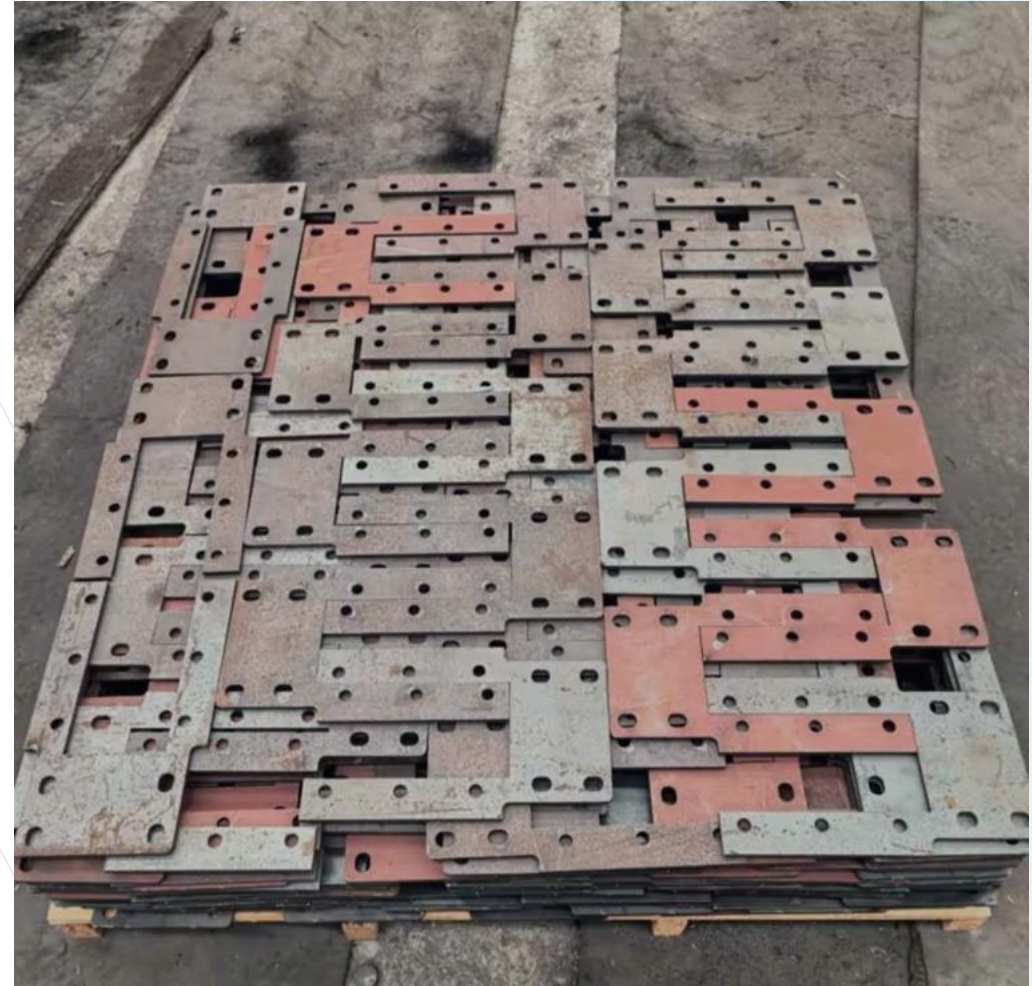

Factory Workforce

Dallah

Industrial Area

Saudi

Local Manufacturer

Production Power

CNC Laser Cutting

2 x 6 meters and 2.5 x 12 meters for high-precision cutting of metal sheets and plates.

Press Brake Bending

3 m, 4 m and 6 m bending machines capable of bending up to 25 mm thickness.

Plate Rolling

3 meter width rolling machine for tanks, silos, cones and cylindrical fabrications.

Welding Stations

All types of welding machines for structural, stainless, and heavy industrial fabrication.

From Concept to Steel Reality

01

Design Support

Review drawings, dimensions, and fabrication requirements.

02

CNC Processing

Laser cutting, bending, punching, drilling, and preparation.

03

Forming & Rolling

Shape plates and components to project specifications.

04

Welding & Assembly

Fabrication by skilled welders and technicians.

05

Inspection

Dimensional checks, visual inspection, and quality control.

06

Delivery

Reliable handover according to project requirements.

CORE SERVICES

Integrated Fabrication Solutions

CNC Laser Cutting

Precision-cut components for industrial fabrication.

CNC Bending

High-accuracy metal forming up to 25 mm thickness.

Plate Rolling

Cylindrical and conical sections for tanks and silos.

Welding & Assembly

MIG, TIG, arc, stainless, and heavy structural welding.

Industrial Equipment & Steel Products

Silos & Storage Systems

Bulk material silos, storage units, and material handling systems.

Tanks & Process Vessels

Storage tanks, process tanks, pressure vessels, and industrial containers.

Hoppers & Chutes

Custom hoppers, chutes, feeders, and process equipment components.

Piping & Steel Assemblies

Fabricated assemblies for industrial and process applications.

Built to Support Industry

ALEBTIKARIA manufactures structural steel components and fabricated assemblies for industrial and commercial applications. Our scope includes steel frames, platforms, walkways, staircases, handrails, supports, and customized access systems designed for durability, safety, and ease of installation.

Steel Frames

Platforms & Walkways

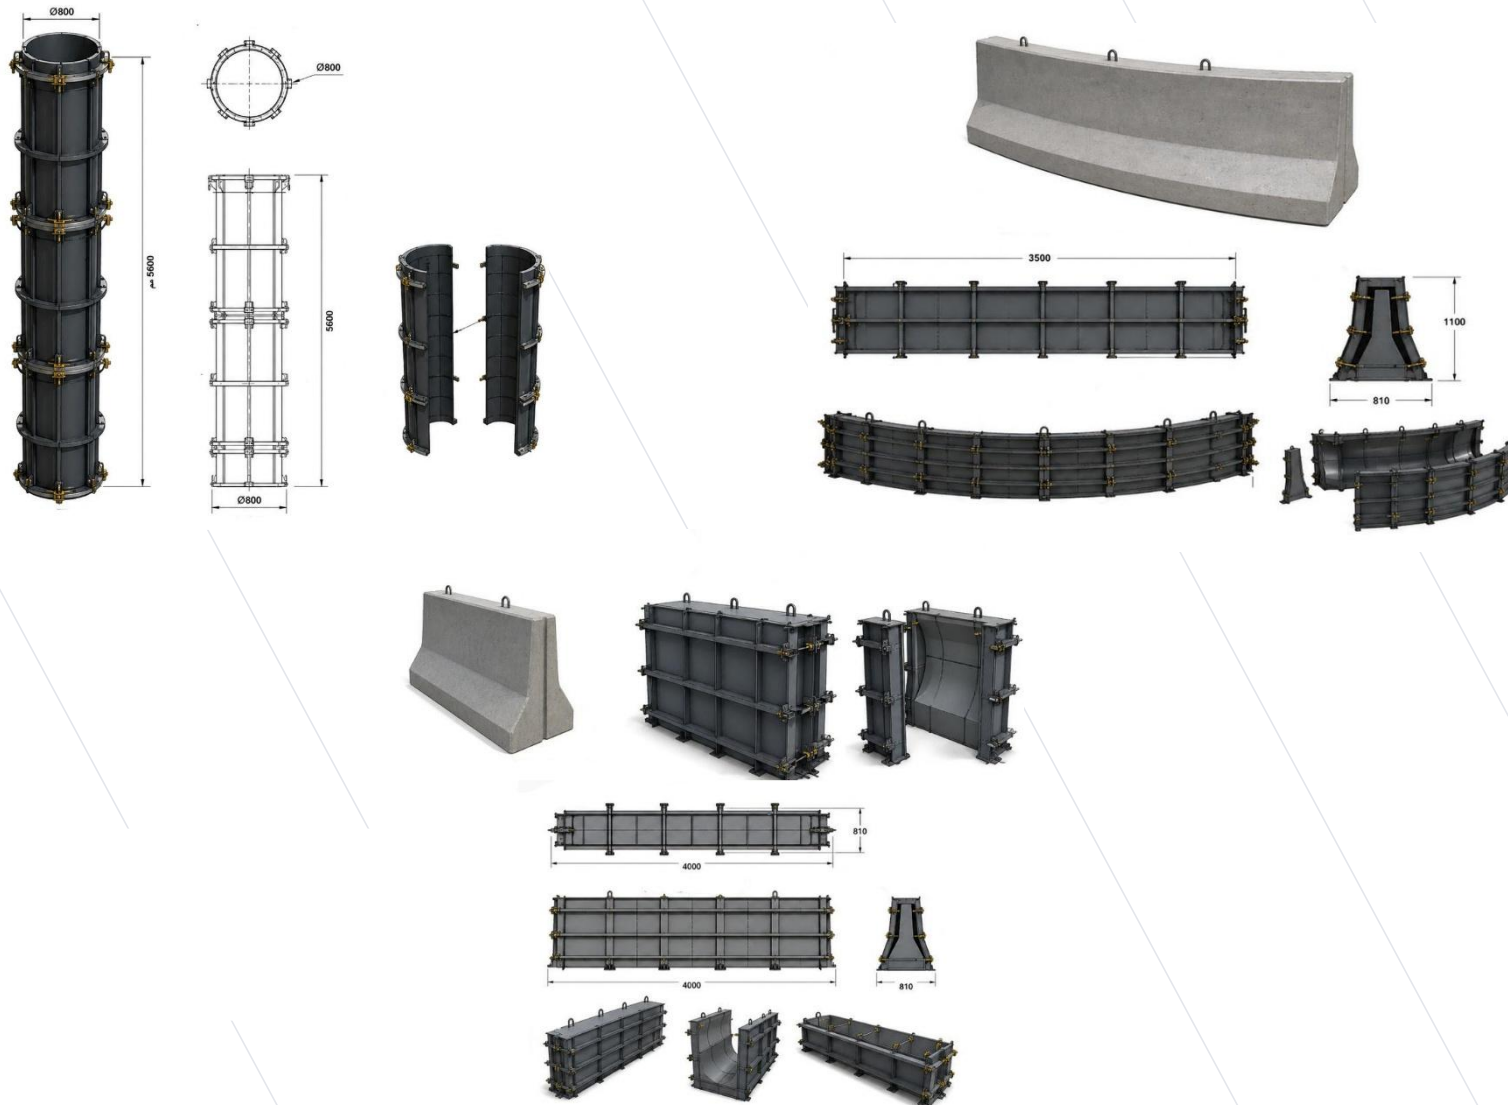

Industrial Staircases

Support Structures

Handrails & Guardrails

Custom Assemblies

Custom Steel Formwork & Mould Fabrication

we specialize in the design and fabrication of high-precision steel formwork and mould systems for the precast concrete industry. Our engineering team develops durable and reusable moulds tailored to project specifications, ensuring dimensional accuracy, structural integrity, and long service life.

SUPPORTING SAUDI VISION 2030

As a Saudi industrial manufacturer, ALEBTIKARIA contributes to the objectives of Vision 2030 by supporting local manufacturing, developing industrial capabilities, creating employment opportunities, and strengthening the Kingdom's industrial supply chain.

We are committed to delivering locally manufactured solutions that support national growth and industrial development.

From Components to Complex Fabrication Solutions

Production Power

From Precision Components to Heavy Industrial Structures

At ALEBTIKARIA AL TASHKEELIA, we provide complete metal fabrication solutions under one roof.

We manufacture precision-cut components, custom steel parts, and engineered assemblies.

Our capabilities include CNC laser cutting, bending, rolling, welding, and heavy fabrication.

We produce channels, brackets, supports, flanges, ducts, frames, and structural steel components.

From a single custom part to a complete industrial structure, we deliver solutions tailored to your requirements.

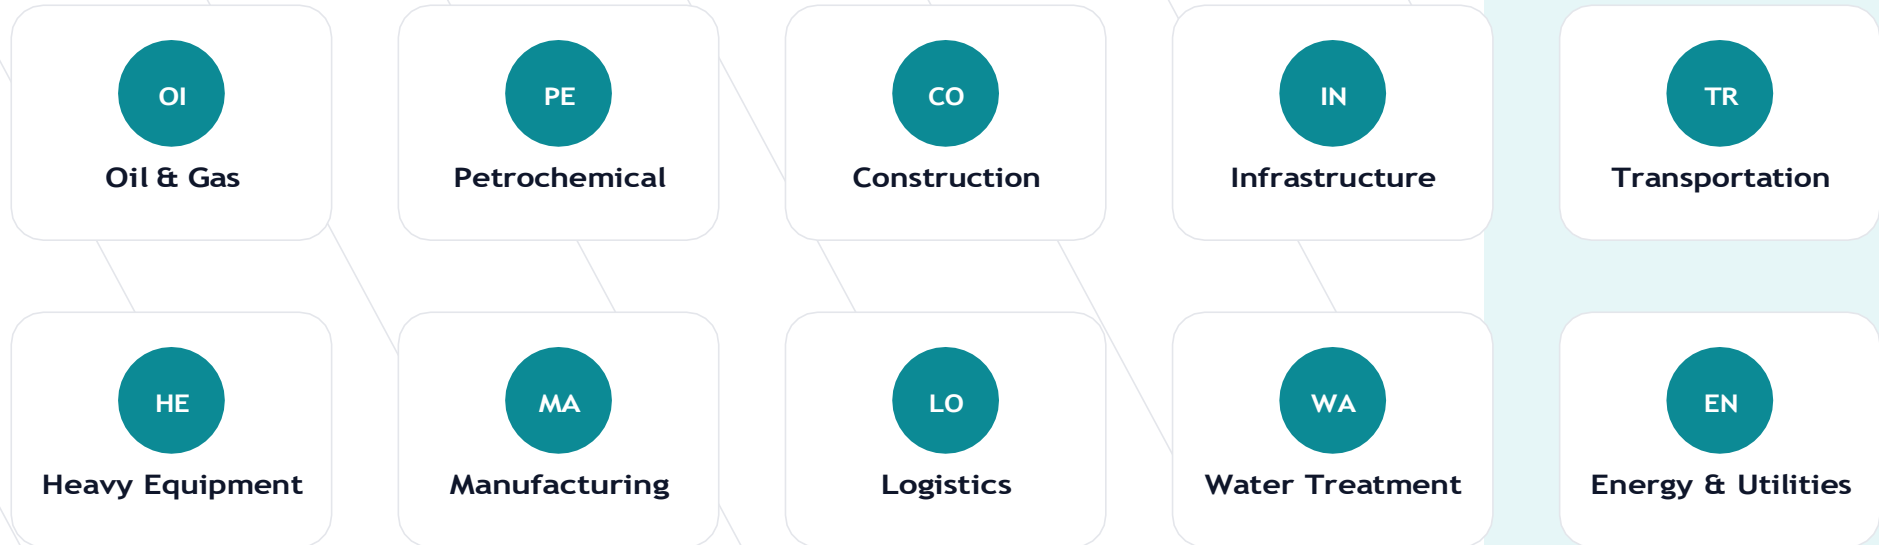

No project is too small or too complex.

Whether you need simple fabricated items or large-scale industrial equipment, our experienced team is ready to support your project with quality, precision, and reliability.

INDUSTRIES SERVED

Trusted Across Critical Sectors

Supporting Saudi Industrial Growth with Local Fabrication Capability

CLIENT BASE

Serving Manufacturers, Contractors & Industrial U

● Alayed Horizon

● Zamil Industrial

● Almajdouie

● Khalid Saeed Al Harbi & Partners

● Wasi Steel Industries

● KiCE Construction Equipment

● Al-Kadi Commerce & Industry

● Zamil Architectural Industries

Our client base includes industrial users, stainless steel fabrication plants, hangar construction companies, production line contractors, gutter and container manufacturers, heavy steel structure fabricators, and transport companies.

Selected Fabrication Works

Performance You Can Depend On

Quality is integrated into every stage of production - from material preparation and CNC processing to forming, welding, assembly, and final inspection. Our process focuses on dimensional accuracy, structural integrity, manufacturing consistency, and compliance with client specifications.

Dimensional Accuracy

Structural Integrity

Visual Inspection

Fabrication Consistency

Safe Working Practices

Client Specification Compliance
